We would like to trace more families in order to return effects.

For this purpose, it would be helpful if successfully concluded returns appeared in our online portal, marked accordingly. This would help us and the many partners all over the world in the search for family members. It would moreover give hope to the persons concerned that their investigations in archives will lead to concrete results.

- I agree to the further display of photos of the effects returned to me on the ITS website with the remark "returned."
- I do not agree to the further display of the photos and request the deletion of the photos of the effects from the online portal.
